

20.1 FILLING THE FRONT FORK “ÖHLINS”

NOTE

Make sure to have the special tools A (no.AP8140424) and B (no.AP8140149) ready at hand before proceeding

- Keep the stanchion and slider assembly upright and fit the two shells of the special tool (B).

- Raise the washer and the damping cylinder assembly.

- Pour oil for “ÖHLINS 1309” fork inside fork slider until reaching the correct level (measure level with a special metering stick).

Oil level: 105 mm (from slider rim).
