

TECHNICAL INFORMATION No. 03-2003

June 12th 2003

Object: Clutch

Model: All versions of the California

To whom it may concern,

This is to inform you that a clutch set with a single sintered disc was assembled on all the California motorcycles models produced from September on.

Also, on all motorcycles with sintered single disc clutch, which are recognizable from a lower load on the handlebar lever, be certain to check more frequently the clearance on the lever, in as much as in the initial using period, it is possible that the clearance void itself with the result that the clutch sticks and, therefore, become irreparably ruined.

Be reminded as well that work can be performed on the handlebar adjuster, on the adjuster at the end of the cable as well as on the clutch lever assembled on the gear cover.

Note, finally, that a percentage of clutches may show some abnormal wearing phenomena due to the material's defect. In such a case, you may request a warranty covered work to substitute the complete set with a dual disc set.

For your convenience, we add the ordering codes list as well as the operation code to insert in the system:

	code	q.ty
motor flywheel	03067030	1
crown gear	17067900	1
screws	98084420	8
screws	12067701	6
flat washer	14615901	18
clutch disc	03084400	2
intermediate disc	12082300	1
cup	12082800	1
spring retaining plate	12082901	1
clutch spring	13084100	8
gear	30081810	1

The code to use for the warranty request in A2D is AF 209 MD01 (6,2 hours)

After inserting the MD code, the system will ask you for the note, at which point you will need to provide the "Technical Information Reference03-2003 " note.

Sincerely yours

TECHNICAL ANNOUNCEMENT No. 11-2003

22nd December 2003

Object: Clutch

Model: All versions of the California

Dear Dealers,

in the light of the technical announcement 03-2003, We inform you that a double-disc clutch kit has been created, which groups all the components listed in the previous announcement.

The kit is available as spare part with the code : 973253600008

Best regards
